1. Dual–Cycle Data Architecture & Ingestion Structure

Multi–Cycle Master Model

The Shikshak Samvad analytics engine aggregates data across two primary cycles: **Cycle 1 (August 2026)** and **Cycle 2 (September 2026)**. While the original physical workbook drops were labeled `..._August.xlsx`, the system integrates both cycles within `dataPackage.json` and `teacher_cohort_data.json` for cross-cycle longitudinal tracking.
