Pedagogical Health & Classroom Practice (Teachers: 23,785) Q95 • Q97 • Q96 • Q82

1. The "Activity Trap" vs. Genuine Student Agency (Q95) 48.1% Misconception

 - 48.1% of teachers (11,450) believe active learning means keeping students busy with enjoyable activities without transferring thinking responsibility.
 - Only 35.9% (8,548) understand that true agency requires giving students authentic responsibilities based on individual strengths and choices.
2. Classroom Belongingness: Confusion with Praise (Q97) 66.1% Confusion

 - Only 33.9% (8,054) recognize that belonging comes from giving students real classroom duties where their impact is felt.
 - 66.1% of teachers reduce belonging to oral praise (25.2%), playing games (28.5%), or enforcing identical rules (12.4%).
3. Error Normalization & Shy Student Support (Q96) 62.0% Baseline Mastery

 - 62.0% (14,758) correctly treat errors as natural learning milestones without fear.
 - 23.0% (5,472 teachers) dumb down questions for shy students (lowering cognitive challenge) instead of providing scaffolded probing.

Field Delivery & Operational Reality Facilitators & Monitors

1. Severe Monitoring Deficit (Q76 & Q59) 35.1% Unmonitored

 - 1,688 clusters (35.1%) had ZERO monitors present during dialogue sessions.
 - Where monitors attended (516 clusters), 37.2% noted low teacher talk-time due to facilitator lecturing.
2. Technology Projection Paradox (Q65) 59.1% PPTs Idle

 - 71.6% had digital PPTs available on mobile, but in 59.1% of monitored sessions, the PPT was never projected onto a screen due to power/screen unavailability.
3. Module Delivery & Materials (Q71 & Q77) 89.8% Guide Coverage

 - 11.0% (529 clusters) lacked physical printed guides (334 soft-copy only, 173 zero guides).
 - 728 facilitators requested concept cheat-sheets for complex teacher doubts.

STATEWIDE 52-DISTRICT PERFORMANCE LANDSCAPE (4-QUADRANTS & DIRECTIVES)

52 DISTRICTS MAPPED

Quadrant	Districts	Representative Districts	What Data Denotes
Q1: Champions (Turnout ≥350, Ped ≥58%)	8 Districts	Chhindwara (863 61%), Indore (459 63%), Narsinghpur (471), Narmadapuram (585)	High mobilization & strong pedagogy. Best-practice hubs.
Q2: Scale Gap (Turnout ≥350, Ped <58%)	26 Districts	Balaghat (802), Betul (951), Dhar (880), Sagar (796), Rewa (648), Satna (715)	Mobilizing well, but teachers struggle on student agency (Q95).
Q3: Mobilize (Turnout <350, Ped ≥58%)	5 Districts	Agar Malwa (239 62%), Sheopur (234), Harda (181), Neemuch (263)	High pedagogy mastery but low turnout. Needs administrative push.
Q4: Support (Turnout <350, Ped <58%)	13 Districts	Alirajpur (339), Anuppur (278), Ashoknagar (347), Bhopal (321), Burhanpur (147)	Double deficit in turnout and pedagogy. Direct RSK intervention.

3 Core Administrative Directives for RSK Leadership

- Shift from Activity to Agency (Academic): Release 1-page coaching guide on micro-role allocation to overcome the 48.1% activity trap.
- Mandatory 1-Teacher School Quorum (Policy): Rotational quota (Math/Sci in Cycle A, Lang/Soc in Cycle B) to reach 100% of the 80k universe in 120 days.
- 100% Monitoring Duty Rosters (Governance): DPCs must assign BRCs/BACs to eliminate the 1,688 unmonitored cluster gap.
